Year 1 Summer Knowledge Organiser Summer Term 2023

This 'Everyday Materials' unit will teach your class about everyday materials including wood, plastic, metal, water and rock. Children will learn to identify and name everyday materials and will have the opportunity to explore the properties of these materials. Children also will carry out a simple investigation to help them decide which material would be most suitable to use for an umbrella. At the end of the unit children apply their knowledge of everyday materials to sort objects by their properties. A range of learning activities are used in this unit including, discussions, labelling and matching activities, games, and an investigation to encourage where children have the opportunity to ask and find the answers to questions.

Materials:

plastic

wood

metal

water

glass

Key Vocabulary

material

fabric

waterproof

stretchy

shiny

absorbent

hard

soft

bendy

object

dull
