Year 1 Science Knowledge Organiser Spring Term 2026

This Seasonal Changes unit will teach your class about the four seasons. Children will observe, measure and record the weather as across all four seasons. They will also observe changes across the seasons by exploring the signs of spring and summer through nature and wildlife. A range of learning activities are used in this unit, including observation, discussion and learning outside. Children also work scientifically by collecting, recording and interpreting simple data.

Key Vocabulary	
seasons	Spring
Summer	Autumn
Winter	daylight
sunshine	weather

The Four Seasons	
autumn September October November	winter December January February
spring March April May	summer June July August
