

Maths Easter homework

(April 2024)

Hi McCartney Class,

I hope you are having a great Easter holiday and are managing to get out and about, in between all the showers and windy days! I also hope you had lots of Easter eggs and are busily munching through them. (Plus brushing your teeth?!)

As promised in class, here are some video links to go with the work pack I gave you. If you can't find the worksheet, don't worry and just watch the videos. I hope it makes some sense to you? Each video link is about 5-10 minutes, depending on how long you need to pause it for thinking time.

Don't spend too long on these tasks. Come back another day. Little and often is good.

Miss Eddy x

Equivalent lengths (metres and centimetres)

1 There are 100 centimetres (cm) in 1 metre (m).

Use the bar models to complete the sentences.

There are cm in 3 m.

2 Complete the table to show equivalent lengths and continue the pattern.

cm	m and cm
310 cm	3 m and 10 cm
320 cm	m and cm
330 cm	m and cm
cm	3 m and 40 cm
cm	3 m and 50 cm
cm	m and cm
cm	m and cm
cm	m and cm
cm	m and cm

<https://vimeo.com/772156079>

Compare lengths

1 Write <, > or = to compare the lengths.

a) 60 mm 6 cm c) 5 cm 45 mm

b) 1 m 50 cm 115 cm d) 100 mm 1 m

How did you work this out?

3 Wr

160

short

4 Jac

130

24

Please just watch these ones
and we will talk about them in
class. Thank you x
