- Listen attentively, move to and talk about music, expressing their feelings and responses

Music • Sing Up— I've Got A Grumpy Face

OUTDOOR LEARNING

The Outdoor Explorers Autumn Unit explores the changes that occur in the natural world in autumn. The lessons look at the signs of autumn and at autumn leaves, autumn seeds, squirrels, bird migration and spiders. The children will learn through themed activities, games and crafts, while developing the ability to work individually and in small groups. Children will also learn to respect and care for the natural environment. Safety when working and playing outdoors is an important aspect of each lesson in the unit.

We will be able to:

- identify some of the plants and animals that can be seen in autumn;
- understand the difference between deciduous trees and evergreen trees;
- describe some types of plants that grow from seeds;
- explain that there are two types of squirrels in the UK;
- name some birds that migrate in the autumn;
- describe what a spider is like

OUTDOOR LEARNING

AWARENESS AND ENRICHMENT OPPORTUNITIES

We will be celebrating the following festivals from around the world...

Black History Month

Harvest Festival

Halloween (31st)
