

3D Hand Art

<https://www.youtube.com/watch?v=AhUbtH01mAY>

3D hand art is a trick of the mind. Watch the video above and follow the instructions. Take your time and make sure you make your picture as colourful as possible. If you complete the hand art work, could you try and create a different 3D picture? Maybe an object from your house or something from the garden?

Please send photos your completed pieces of work to my email to make me smile 😊.
